

Tri-Phase Hair Tonic

Three layered hair tonic with hair volumizing and conditioning effects. Fiflow® BB 61 is the gas carrying active ingredient and in hair applications it brings volume to the hair structure. It also conditions the skin on the scalp enhancing the cell metabolism by introducing additional oxygen. Dedraflow® 5 HR is a hypoallergenic and volatile emollient with similar qualities as Cyclomethicone. It is especially designed to hair care applications as it has faster volatility leaving the application dry without any residue. Crealba® Aquasol brings the nutritious hair care benefits of Meadowfoam Seed Oil® into water phase applications and it can also act as solubilizer.

Ingredients	INCI Name	Qty%	Supplier
Phase A			
	Water (and) Alcohol	67,92	
	Sodium Chloride	0,08	
Phase B			
	Perfume	2,00	
Dedraflow® 5 HR	Hydrogenated Polyisobutene (and) Hydrogenated Polydecene	10,00	1)
Crealba® Aquasol	Limnanthes Alba (Meadowfoam) Seed Oil (and) PEG-6	10,00	1)
Phase C
